Cognitive Processing

Editors-in-Chief: Belardinelli, M. O., Rome, Italy; Pöppel, E., Munich, Germany

This peer-reviewed journal publishes innovative contributions in the multidisciplinary field of cognitive science. The principal aim is to develop a better understanding of the processes of cognition and thinking, bringing together the perspectives of neuroscience, philosophy, computer science, cognitive psychology and linguistics. The journal covers various approaches, including theoretical, experimental, methodological and many others.

In its treatment of thinking, the emphasis lies on fostering new perspectives and mutual enrichment, with the aim of developing a coherent multi-layer theory of thinking that encompasses research from the neuronal level to that of complex operations connecting mental contents. The journal’s multidisciplinary approach places it in a unique position to improve our understanding of one of today’s most fascinating scientific frontiers.

EcoHealth

Editor-in-Chief: Wilcox, B. A., Honolulu, Hawaii, USA

Ecosystem change has far reaching implications for health and sustainability at local, regional and global scales. EcoHealth is a new international journal that focuses on the integration of knowledge at the interface between ecological and health sciences. EcoHealth builds on the foundation laid by the complementary journals Ecosystem Health and The Global Change and Human Health. By merging these two journals and linking with the Consortium for Conservation Medicine, the journal provides an authoritative forum for research and practice that integrates human, wildlife and ecosystem health. The focus on human and wildlife health reflects their centrality as criterion for humankind’s search for a sustainable future.

ISSN print: 1612-9202; ISSN electronic: 1612-9210; Title No.: 10393; Springer New York

Esophagus

Editor-in-Chief: Ando, N., Ichikawa, Japan

Esophagus, the official journal of the Japan Esophageal Society, introduces practitioners and researchers to significant studies in the fields of benign and malignant diseases of the esophagus. The journal publishes original articles, review articles, case reports and short articles including technical notes. Special articles on esophageal diseases are provided by the editorial board, and proceedings of symposia and workshops are included in special issues for the annual congress of the Society.

Facies

Editor-in-Chief: Freiwald, A., Erlangen, Germany

Facies analysis is a central part of paleontological and sedimentological research. Once the central part of research in oil exploration, it now benefits from the newly gained importance of biogeology and computer simulation. Both fields need the integration of various methods for the understanding of processes. Thus the importance of facies analysis will increase in the future. The journal is ideally suited for academia.

Gynecological Surgery

Editor-in-Chief: O’Donovan, P., Bradford, UK

Gynecological Surgery represents the surgical aspects of endoscopic imaging and allied techniques. It is an international forum for the description and discussion of various aspects of interventional endoscopy and ultrasound as integral elements of surgical practice. Interventional endoscopy and ultrasound have permitted decisive advances in surgery. The journal serves the international gynecological community for the transfer of information relating to practice, theory, and research.

Japanese Journal of Ophthalmology

**Editor-in-Chief:** Masuda, K., Tokyo, Japan

The *Japanese Journal of Ophthalmology (JJO)* was inaugurated in 1957 as a quarterly journal published in English by the Ophthalmology Department of the University of Tokyo, with the aim of disseminating the achievements of Japanese ophthalmologists worldwide. *JJO* remains the only Japanese ophthalmology journal published in English. In 1997, the Japanese Ophthalmological Society assumed the responsibility for publishing the *Japanese Journal of Ophthalmology* as its official English-language publication. Currently the journal is published bimonthly and accepts papers from authors worldwide. *JJO* has become an international interdisciplinary forum for the publication of basic science and clinical research papers.

Journal of Optical and Fiber Communications Reports

**Editors-in-Chief:** Bjarklev, A., Lyngby, Denmark; Chowdhury, D., Corning, NY, USA; Nakasawa, M., Katahira, Japan; Weber, H.-G., Berlin, Germany

The *Journal of Optical and Fiber Communications Reports* provides a survey of selected topics at the forefront of research. Main topics covered include: specialty fibers (periodic fibers, holey fibers, erbium-doped fibers), broadband lasers, optical switching (MEMS or others), polarization, chromatic mode dispersion and compensation, long-haul transmission, optical networks (LAN, MAN, WAN), protection, restoration and many others. This journal satisfies the needs of experts as well as graduates and junior researchers by providing both general information and a highly technical presentation of results. It is ideally suited as a comprehensive guide to this dynamic subject.

Journal of Ornithology

Formerly: Journal für Ornithologie. The journal is the official publication of the German Society for Ornithology (DO-G)

Editor-in-Chief: Bairlein, F., Helgoland, Germany

The Journal of Ornithology is highly reputed around the world as one of the most important and dynamic journals in the field. Springer is proud to announce that the journal, founded in 1853 and organ of the German Society for Ornithology, has been completely re-launched and is now exclusively published as an English-language publication. Regular items published include peer-reviewed original articles, reviews, short communications and letters to the editor. International contributions cover the entire Scientific Ornithology, in particular Ecology, Anatomy, Physiology, Pathology, Taxonomy, Biology of Breeding and Ethology of Birds.

Journal of Public Health

Zeitschrift für Gesundheitswissenschaften

Editor-in-Chief: Kirch, W., Dresden, Germany

The Journal of Public Health/Zeitschrift für Gesundheitswissenschaften is an interdisciplinary publication for the discussion and debate of international public health issues, with a focus on European affairs. Individual contributions describe the social and individual factors for determining the basic conditions of public health, analyze causal inter-relations, and offer a scientifically sound rationale for personal, social and political measures of intervention.

Landslides

Editor-in-Chief: Sassa, K., Kyoto, Japan

Landslides are gravitational mass movements on the earth’s surface. They are studied in the fields of earth, water and engineering sciences. Landslides as catastrophic events may destroy construction works and cultural and natural heritage. The journal Landslides is the common platform for the publication of integrated research on landslide risk mitigation and the protection of cultural and natural heritage. The journal publishes research papers and information on the activities of the International Consortium of Landslides.

Mediterranean Journal of Mathematics

Editor-in-Chief: Altomare, F., Bari, Italy

The Mediterranean Journal of Mathematics (MedJM) is a new publication issued by the Department of Mathematics of the University of Bari. It succeeds the journal Conferenze del Seminario Matematico dell’Università di Bari that was published from 1954 until 2003. The journal publishes original peer-reviewed research papers containing significant results in all fields of mathematics. Furthermore, it offers mathematicians from the Mediterranean countries the chance to spread and to emphasize the results of their research in a common journal. Through such a new cultural and scientific stimulus, the journal contributes to the integration process among the universities of the Mediterranean countries.
