Days from acceptance to online first publication Number of days from acceptance at publisher to published online.	30

Usage

Downloads Springer measures the usage on the SpringerLink platform according to the COUNTER (Counting Online Usage of NeTworked Electronic Resources) standards.	26,016
Usage Factor – 2014/2015 The Springer Journal Usage Factor 2014/15 was calculated as suggested by the COUNTER Code of Practice for Usage Factors. It is the median value of the number of downloads in 2014/15 for all articles published online in that particular journal during the same time period. The Usage Factor calculation is based on COUNTER-compliant usage data on the SpringerLink platform. (Counting Online Usage of NeTworked Electronic Resources) standards.	91.0
Mentions and articles discussed via Social Media platforms Additional research-impact indices, known as alternative metrics, are offering new evaluation alternatives. One of those is a researchers' reputation made via their footprint on the social web. The social media statistics are provided by Altmetric. They monitor article mentions on Twitter, Facebook, Google+, Reddit, Blogs, News articles, Policy documents and Faculty of 1000 reviews.	669

Impact

SNIP – 2015

Source Normalized Impact per Paper (SNIP) measures contextual citation impact by weighting citations based on the total number of citations in a subject field. The impact of a single citation is given higher value in subject areas where citations are less likely, and vice versa.

0.732

SJR – 2015

SCImago Journal Rank (SJR) is a measure of scientific influence of scholarly journals that accounts for both the number of citations received by a journal and the importance or prestige of the journals where such citations come from.

0.579

Journal Author Satisfaction, likelihood to publish with Springer again

Springer's Author Satisfaction Survey programme was set up to optimize the journal publishing process from the authors' perspective (results are only included if the number of respondents in two years was higher than 10).
