New EIBA Award to be presented at EIBA 2017 Milan:

*Economia e Politica Industriale – Journal of Industrial Business and Economics* awards the JIBE Prize for the Best European International Business Academy (EIBA) Conference Paper in IB at the intersection of International Trade and Industrial Organization

*Lucia Piscitello, EIBA President & Conference Chair 2017*

The JIBE Prize will be:
- awarded to the best paper dealing with internationalization processes and combining the perspectives of International Business (IB), International Trade (IT) and Industrial Organization (IO). In fact, the recognition of the role of firm heterogeneity and the extensive use of firm-level data create the conditions for a convergence in theoretical and empirical approaches between the three disciplines.
- Jury members will be selected from the editorial boards of the Journal, which include several distinguished scholars at the crossroads of the three disciplines: John Cantwell; Bruno Cassiman; Davide Castellani; Chiara Criscuolo; Andrea Goldstein; Axel Giroud; Simona Iammarino; Keld Laursen; Lucia Piscitello; Larissa Rabbiosi; Frances Ruane; Grazia Santangelo; Reinhilde Veugelers; Antonello Zanfei.

The JIBE Prize will be:
- a monetary prize (500 euros) offered by the *Associazione Amici di Economia e Politica Industriale* and a certificate
- conditional on the willingness of the authors to contribute (with the winning paper or a spin-off of it) to a Forum section on the theme “International Business meets International Trade and Industrial Organization” that will appear in the Journal in 2018

The JIBE Prize will benefit EIBA by:
- offering EIBA participants an additional possible outlet for their research work
- providing awareness and promoting the Journal within a wide community of international scholars
