Different Kinds of Specificity Across Languages

This anthology of papers analyzes a range of specificity markers found in natural languages.

Features
- Brings together empirical and theoretical research on specificity
- Presents for the first time an overview over the specificity markers found in natural languages
- Shows that specific indefinites are no homogeneous class, but one that comprises various sub-kinds
- Deepens our understanding of specificity by concentrating on the similarities and differences among specificity markers in different languages
- Enhances our understanding of the connection between specificity and topicality

Contents
Introduction by Cornelia Ebert and Stefan Hinterwimmer
- Specificity Markers and Nominal Exclamatives in French by Fabienne Martin
- The Interpretation of the German Specificity Markers bestimmmt and gewiss by Christain Ebert, Cornelia Ebert and Stefan Hinterwimmer

Semantics of Genitive Objects in Russian

A Study of Genitive of Negation and Intensional Genitive Case

The genitive/accusative opposition in Slavic languages is a decades-old linguistic conundrum.

Features
- Sheds new light on the genitive/accusative opposition phenomenon in Russian, an object case alternation that has long puzzled linguists
- Provides a new semantic analysis of genitive objects
- Reveals a semantic parallel between genitive Case and subjunctive mood
- Relates genitive objects in Russian to other instances of differential object marking
- Explains the relation between case and specificity, definiteness, scope, number and aspect
