**Summus Mathematicus et Omnis Humanitatis Pater**

**The Vitae of Vittorino da Feltre and the Spirit of Humanism**

This book revises the picture of the teacher and educator of princes, Vittorino Rambaldoni da Feltre (c. 1378, Feltre -- 1446, Mantua), taking a completely new approach to show his work and life from the individual perspectives created by his students and contemporaries. From 1423 to 1446, Vittorino da Feltre was in charge of a school in Mantua, where his students included not only the offspring of Italy’s princes, but also the first generation of authors dealing with books in print.

**Features**
- Includes as appendix one translated original Renaissance biography
- Closes a research gap between humanist educational treatises and experienced humanist classroom practice
- Provides background information about the first printed mathematics editions
- Includes bibliography and index that helps researchers to find their way into topics of Renaissance learning and the beginning of print culture

**Contents**
