Journal Metrics 2017

Speed

<p>Days from submission to first decision - 2017 Number of days from submission of the manuscript to first decision.</p>	20
<p>Days from acceptance to online publication - 2017 Number of days from acceptance at publisher to published online.</p>	14

Usage

<p>Downloads - 2017 Springer measures the usage on the SpringerLink platform according to the COUNTER (Counting Online Usage of NeTworked Electronic Resources) standards.</p>	53,748
<p>Usage Factor - 2016/2017 The Springer Journal Usage Factor 2016/17 was calculated as suggested by the COUNTER Code of Practice for Usage Factors. It is the median value of the number of downloads in 2016/17 for all articles published online in that particular journal during the same time period. The Usage Factor calculation is based on COUNTER-compliant usage data on the SpringerLink platform. (Counting Online Usage of NeTworked Electronic Resources) standards.</p>	607
<p>LinkOut Statistics - 2017 One of the most important indexing services for biomedical and life sciences literature, PubMed, provides us with information on how often PubMed users follow links to SpringerLink.</p>	3,614

Impact

<p>h5 Index - 2017</p> <p>Google's h5 Index is a metric based on the articles published by a journal over the previous 5 calendar years with a minimum of 100 articles in this period. If a journal publishes 100 articles sooner, an h5 Index can be calculated earlier. h is the largest number of articles that have each been cited h times. The h5 Index therefore cannot be dominated by one or several highly cited articles.</p>	12
<p>Journal Author Satisfaction - Overall Satisfaction</p> <p>The percentage of responding authors who rated their publishing experience with the journal as 'excellent' or 'good'.</p>	100%
