## Journal Metrics 2017

### Speed

- **Days from acceptance to online publication - 2017**
  - Number of days from acceptance at publisher to published online.
  - 18 days

### Usage

- **Downloads - 2017**
  - Springer measures the usage on the SpringerLink platform according to the COUNTER (Counting Online Usage of NeTworked Electronic Resources) standards.
  - 63,502 downloads

- **Usage Factor - 2016/2017**
  - The Springer Journal Usage Factor 2016/17 was calculated as suggested by the COUNTER Code of Practice for Usage Factors. It is the median value of the number of downloads in 2016/17 for all articles published online in that particular journal during the same time period. The Usage Factor calculation is based on COUNTER-compliant usage data on the SpringerLink platform. (Counting Online Usage of NeTworked Electronic Resources) standards.
  - 354

- **LinkOut Statistics - 2017**
  - One of the most important indexing services for biomedical and life sciences literature, PubMed, provides us with information on how often PubMed users follow links to SpringerLink.
  - 10,987
## Impact

<table>
<thead>
<tr>
<th>Metric</th>
<th>2017</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>CiteScore 2017</strong></td>
<td>5.17</td>
<td>CiteScore 2017 counts the citations received in 2017 to documents published in 2014, 2015 or 2016, and divides this by the number of documents published in 2014, 2015 and 2016.</td>
</tr>
<tr>
<td><strong>SJR - 2017</strong></td>
<td>1.899</td>
<td>SCImago Journal Rank (SJR) is a measure of scientific influence of scholarly journals that accounts for both the number of citations received by a journal and the importance or prestige of the journals where such citations come from.</td>
</tr>
<tr>
<td><strong>h5 Index - 2017</strong></td>
<td>28</td>
<td>Google's h5 Index is a metric based on the articles published by a journal over the previous 5 calendar years with a minimum of 100 articles in this period. If a journal publishes 100 articles sooner, an h5 Index can be calculated earlier. The h5 Index therefore cannot be dominated by one or several highly cited articles.</td>
</tr>
<tr>
<td><strong>Journal Author Satisfaction - Overall Satisfaction</strong></td>
<td>100%</td>
<td>The percentage of responding authors who rated their publishing experience with the journal as 'excellent' or 'good'.</td>
</tr>
