

Special Issue:

1. Call for papers for a Special Issue of the 2nd International Conference on Energy, Ecology and Environment (ICEEE2018) and International Conference on Electric and Intelligent Vehicles (ICEIV2018)

With the growing concerns on energy shortage and environmental pollution, the research and development of new energy generation technologies and new environmental policies have been faced significant challenges to provide sustainable energy, ecosystem and environment in managing and controlling the process at each level of the concerned systems. The International Conference on Energy, Ecology and Environment (ICEEE) and International Conference on Electric and Intelligent Vehicles (ICEIV) create a forum for scientists, researchers, engineers and government officials to share the latest progress on technology, policies as well as future direction and trends.

2. topics

The conferences cover the following topics:

- Smart Energy Supply and Regulation System
- Integrated Energy Systems and Networks
- Dynamic Modelling of Energy Systems
- Energy and Materials Metabolism
- Innovative Renewable Energy Technologies
- Urban Climate Policy and Analysis
- Emission Control and Urban Air Quality
- Urban Economy and Energy Investment
- Nexus of Energy and Environment
- Intelligent Transport
- Electrical Vehicles:

3. Tentative schedules

- Submission Open: Feb 1, 2019
- Submission Close: Apr 30, 2019
- Publication of Special Issue: Jun, 2019

4. Preparation of manuscript

The manuscript must be prepared in accordance of the guidelines provided by Energy, Ecology & Environment. Please visit the journal homepage (<https://www.springer.com/energy/journal/40974>) for more details. Authors need to select the option “**ICEEE/ICEIV2018**” to submit the manuscript for this special issue.

5. Guest Editor

Victor Nian, Energy Studies Institute, National University of Singapore, Singapore,
nian@nus.edu.sg

Yukun Hu, Department of Civil, Environment & Geomatic Engineering, Faculty of Engineering Science, UCL, yukun.hu@ucl.ac.uk

Ck Tan, University of South Wales, ck.tan@southwales.ac.uk
