

BCAM SpringerBriefs

BCAM, in cooperation with Springer, are proud to announce the BCAM SpringerBriefs publications.

The SpringerBriefs with BCAM aim to publish contributions in the following disciplines: Applied Mathematics, Finance, Statistics and Computer Science.

BCAM has appointed an Editorial Board – made up of 5 members – that will be presided by Prof. Enrique Zuazua, and will include the following Professors:

Enrique Zuazua (FAU-Erlangen (Germany), Deusto Foundation-Bilbao (Spain) & UAM-Madrid (Spain)), Irene Fonseca (Pittsburgh), Juan J. Manfredi (Pittsburgh), Emmanuel Trélat (Paris), Xu Zhang (Chengdu).

SpringerBriefs are compact volumes of 50 to 125 pages, and cover a range of content from professional to academic.

Typical Topics might include:

- A timely report of state-of-the-art analytical techniques
- A bridge between new research results published in journal articles and a contextual literature review
- A snapshot of a hot or emerging topic
- A presentation of core concepts that students must understand in order to make independent contributions

Author Benefits:

- Briefs allow authors to present their ideas and readers to absorb them with minimal time investment
- Briefs will be published as part of Springer's eBook collection, with millions of users worldwide. In addition, Briefs will be available for individual print and electronic purchase
- Briefs are characterized by global electronic dissemination, standard publishing contracts, easy-to-use manuscript preparation and formatting guidelines, and expedited production schedules
- Both solicited and unsolicited manuscripts are considered for publication in this series
- Projects will be submitted to peer review
- The author keeps the copyright to the manuscript, though Springer will have the exclusive publishing right
