

# How to use my Springer Society Token

The Springer Token you have received validates you as a member of a society. **You will only need to enter the token number the first time you register.** After that you will only have to login with your username and password and then you can access all areas available to you as a online member-access to the society journal, discounts on Springer books, etc.

## Ordering Books

When ordering books, please keep in mind that the discounted prices are only shown in the shopping cart. While you are browsing our website, you will always only see the recommended retail prices. Once you have put a product into the shopping cart and have logged in as a springer.com user, then you will see the discounted price of your chosen product.

## Step 1 - Productpage

Here is a screenshot of a product which is not yet in the shopping cart. The displayed price is not yet reduced. Clicking on the shopping cart button leads you to the shopping cart .

The screenshot shows the Springer website interface. At the top, there is a navigation bar with links for HOME, HELP, LOGOUT, MY SPRINGER, and a language selection dropdown. Below this is a search bar with a search input field, a search by dropdown menu set to 'All', and buttons for 'GO' and 'ADVANCED SEARCH'. The main header features the Springer logo and the text 'Cell Biology' in a large font. Below the header, there are navigation links for Journals, Series, Conferences, and Contact. A green navigation bar contains two dropdown menus: 'Select your subdiscipline' and 'Select a discipline'. The breadcrumb trail reads '> Home / Life Sciences / Cell Biology'. The main content area displays the product 'Biology of the Fungal Cell' from the 'The Mycota' series, Vol. 8, edited by Howard, Richard J. and Gow, Neil A.R. (Eds.). It is the 2nd edition, published in 2007, with approximately 350 pages, 85 illustrations, and 6 in color. The ISBN is 978-3-540-70615-1. The due date is June 28, 2007. The price is listed as 169,95 €. There are buttons for 'Print version' and 'Recommend to others'. Below the product information, there are sections for 'Additional information', 'Reviews', 'All books by these editors', and 'Related subjects'. The 'About this book' section provides a detailed description of the book's content, focusing on the unique features of the fungal cell among eukaryotes and the various facets of questions related to its growth and development.

### Step 2 – Shopping Cart

In the shopping cart the discounted price is displayed. When you have put all the titles you want to buy into your shopping cart you click on the PROCEED TO CHECKOUT button.

Your order is encrypted after you press the PROCEED TO CHECKOUT button, guaranteeing the security of your ordering information.

### Step 3 – Registration Shipping Address

The first time you use Springer's online bookshop, you will be asked to provide your shipping address. The discounted price including VAT for your country can only be shown after you have given us your shipping address. Here is an example of a user who has entered a SpringerToken with his/her society's discount (33,33%), and who wants the book to be shipped to a country in which the VAT is 7,0 %.
