Springer Journal Collection in Chemistry and Materials Science

More than 220 Journals

With over 220 journals, the Springer Chemistry and Materials Science program serves research and academic communities around the globe, covering the fields of polymer science, characterization and evaluation of materials, energy storage, organic chemistry, inorganic chemistry, biochemistry, biotechnology, analytical chemistry, food science, nanotechnology, physical chemistry, microscopy, optics, surfaces, special materials and more. Springer journals are recognized as a source for high-quality, specialized content across a broad range of interests. All journals are peer-reviewed and edited by internationally respected scientists, researchers and academics from world-leading institutions and corporations. Most of the journals are indexed by major abstracting services. The content is searchable by subject, publication title, topic, author or keywords on SpringerLink, the world’s most comprehensive online collection of scientific, technological and medical journals, books and reference works.

Society Partners Include:
The Minerals, Metals & Materials Society
American Vacuum Society
ASM International – The Materials Information society
Gesellschaft Deutscher Chemiker
The American Oil Chemists’ Society
European Society of Rheology

All Impact Factors are from 2010 Journal Citation Reports® – Thomson Reuters.
All journals are available on springerlink.com

- Enhanced browsing features
- Semantic Linking delivers more related content
- Improved search functionality – including searching by citation
- Easy filters for Online First and Open Access articles
- And much more

Highlights from the Collection:

- **Topics in Catalysis**
  - IF 1.907

- **Analytical & Bioanalytical Chemistry**
  - IF 3.841

- **Journal of Solid State Electrochemistry**
  - IF 2.234

- **Rheologica Acta**
  - IF 2.382

- **Journal of Materials Science**
  - IF 1.859

- **Journal of Sol-Gel Science and Technology**
  - IF 1.525

Springer journals in Chemistry and Materials Science cover the hottest topics, including:

- Catalysis
- Electrochemistry
- Biomaterials
- Nanotechnology
- Materials Chemistry

Prominent contributors are world leaders in their fields and include:

- Dan Shechtman, 2011 Nobel Prize in Chemistry
- Robert Grubbs, 2005 Nobel Prize in Chemistry
- Gabor Somorjai, University of California at Berkeley
- Jean-Marie Lehn, 1987 Nobel Prize in Chemistry
- C. Barry Carter, Editor-in-Chief, Journal of Materials Science
- Robert Huggins, Stanford University

Free SpringerLink App

Over 5.5 million content within your reach. Download today from the iTunes store.

Why Springer Journal Collection Packages?

- Available 24/7, on and off-campus
- Includes electronic supplementary materials such as tables, graphs and videos
- Journal articles are searchable by subject area, publication title, topic, author, citation or keywords
- Through the Online Archives Collection almost every journal is available online from Volume I, Issue I
- Comprehensive support. Once subscribed, you will receive the resources you need to make the most of your investment!
- More than 60,000 librarians worldwide choose SpringerLink for online scientific content
